POOCH BREW RECIPE FUN

THERE ARE LOTS OF FUN WAYS TO SERVE OUR POOCH BREW TO YOUR FURRY FRIEND!

Our Pooch Brews are a great, yummy and easy way to add a little extra nutrition and herbal benefits to your pets diet. They are also handy for encouraging doggos to drink, for those who don't typically like or drink very much water.

HAVE SOME FUN WITH OUR SERVING IDEAS! EVEN THE FUSSIEST POOCH WILL LOVE IT ONE WAY OR ANOTHER.

YUMMY FROZEN SNACK

For a yummy frozen snack, especially in the hotter months - make the brew as per instructions on the pack, and then pour into ice cube moulds and freeze. Serve them 1 by 1 as a treat, or add them in your dogs water bowl for an 'Iced Tea'. We haven't come across a pooch that doesn't love it served this way!

TRYIT THE MILKY WAY

Some pooches prefer our Pooch Brew with a dash of milk, just like we enjoy tea! Brew as per instructions on the pack, then add a dash of milk for a yummy milky infusion! Be mindful that pets can also have an intolerance to lactose. For that reason, we recommend coconut milk which has healthy fats, or a pet specific milk that is lactose free. But most dogs are fine with regular milk, or even goats milk! So give this a try!

ADD FLAVOUR TO YOUR PET'S FOOD

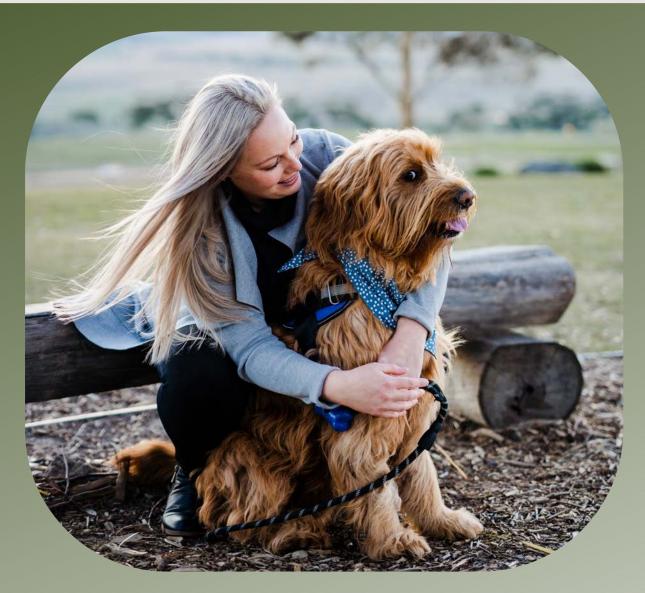

Some other simple ways to add our Pooch Brew to your pets diet is to brew as per directions on pack, and mix in with dry or wet food.

Or, if you make your pooches food such as boiling mince, rice or chicken etc. you can add the tea bag into the water for the last few minutes of cooking and the flavours will infuse into the meat or rice.

*Don't forget to remove the teabag after cooking.

Our Pooch Brews are Approved by an Animal Naturopath, they are completely Natural, Caffeine Free and offer wonderful herbal benefits. Our Brews are a holistic approach to supporting your pets overall well-being. We cant wait for your pooch to try some! Be sure to let us know their favourite way to enjoy.
